## SNH's Bipaga Liquefied Petroleum Gas Depot: 10 000<sup>th</sup> Tanker Truck Milestone Reached

On 23 June 2025, the SNH GPL Depot reached a significant milestone in its operations by loading the 10 000<sup>th</sup> tanker truck destined to supply the national market.

A strict protocol, qualified personnel, and regularly updated safety regulations ensure the optimal functioning of the Bipaga Depot, with due respect for property, people, and the environment.

Furthermore, the site has not recorded any incidents or work stoppages since the start of its operations in 2018, amounting to 2 683 days without incidents or accidents as at 23 June 2025. Its impact as the sole local source of domestic gas supply since mid-2019 is regularly praised by stakeholders in the GPL sector.

*An estimated subsidy saving of 13.907 billion FCFA since operations began in 2018*

Since its creation, the GPL Depot has contributed to reducing shortages observed in Cameroon's main cities and decreasing subsidies granted for this product.

In terms of figures, the SNH GPL Depot represents:

- ◇ A 14% contribution to the national GPL supply in 2024.
- ◇ 209 445 metric tonnes, corresponding to over 16 700 000 12.5 kg GPL cylinders for Cameroonian households since 2018.
- ◇ An estimated subsidy saving of 13.907 billion FCFA since operations began in 2018.
- ◇ An estimated foreign exchange saving of 150.156 USD million since 2018.
