Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements of NHC Portfolio management present fairly, in conformity with generally accepted accounting principles, the financial position of the company at December 31st, 2016, and the results of its operations for the year then ended.

II. SPECIFIC AUDIT PROCEDURES AND DISCLOSURES

We have carried out specific audit procedures required by law in Cameroon. We do not have any special point to rise as for the truth and fair view or the conformity of the information provided to the Board of Directors on the financial statements with the said financial statements.
